**At GATX, doing things the right way, ethically, with integrity, and in full compliance with the law is not just a policy, it is ingrained in our culture.** GATX depends on its suppliers not only to meet their business obligations, but also to do so the right way.

Our Supplier Code of Conduct is meant to help. It outlines our expectations for suppliers when working with us. This Supplier Code of Conduct applies to all suppliers to GATX and reflects applicable laws and GATX's internal policies. GATX has procurement and supply chain monitoring processes to assess certain Environmental, Social, and Governance (ESG) risk exposures for its products and services for a select group of suppliers and vendors in order to assist with managing ESG risks.
